- 25X1 1. Zbrojovka (Armament Works) National Corporation, Brno, is building a new plant in Budec (O 50/M 34) near Zdar. Part of this factory is already in operation and is producing tank chassis parts. The manager of this factory is an engineer named Gottwald, German by nationality. The old highway to Budec was rerouted to make room for this factory. There are about 200 prisoners engaged in the construction.
2. The construction of the double-track railroad line from Havlickuv-Brod to Brno is behind schedule because of a lack of manpower. The railroad bridges along this new line in the area of Zdar are already finished.
